Earth and Planetary Sciences Major (13 courses)
Prerequisites (3): (1) Intro course (1) CHEM 5 or 11 (1) MATH 3, 8, 9, 11, 13, 23, or 46
Course Requirements (9): (1) Data Analysis course (EAPS 15-29) (4) Methods and Concepts courses (EAPS 30-49) (1) Advanced Quantitative Analysis course (EAPS 50-69) (1) Advanced Topics course (EAPS 70-89) (2) Additional courses numbered EAPS 15 and above ***Among these courses, at least (2) must be “field data collection” courses (EAPS 15, 16, 18, 33, 35, 38, 40, 42, 45, 46, 47, 48, 49, 56)
Culminating Experience (1): (1) EAPS 90, 91, or 92 (and optionally 93)

Earth and Planetary Sciences Minor (8 courses)
Prerequisites (3): As above
Course Requirements (5): (5) EAPS courses numbered EAPS 15–89, at least (1) must be a field data collection course

Earth and Planetary Sciences Modified Major, EAPS Primary (10 courses)
Prerequisites (3): As above
Course Requirements (6): (6) EAPS courses numbered EAPS 15–89, at least (2) must be field data collection courses (discussed above)
Culminating Experience (1): (1) EAPS 90, 91, or 92 (and optionally 93)

Earth and Planetary Sciences Modified Major, EAPS Secondary (8 courses)
Prerequisites (3): As above
Course Requirements (5): (5) EAPS courses numbered EAPS 15–89, at least (1) must be field data collection courses (discussed above)

OLD COURSE #		NEW COURSE #		COURSE TITLE
Introductory Courses				
EARS	1	EAPS	1	How the Earth Works
EARS	2	EAPS	2	Evolution of Earth and Life
EARS	3	EAPS	3	Elementary Oceanography
EARS	6.05	EAPS	4	Modeling the Earth System
EARS	5	EAPS	5	Natural Disasters and Catastrophes
EARS	6	EAPS	6	Environmental Change
EARS	7.06	EAPS	7	First-Year Seminar in Earth and Planetary Sciences: Soils and Society
EARS	8	EAPS	8	Carbon Sequestration: Opportunities and Challenges
EARS	9	EAPS	9	Earth Resources
EARS	19	EAPS	10	Habitable Planets
Data Analysis Courses				
EARS	15	EAPS	15	Earth's Climate - Past, Present, Future
EARS	16	EAPS	16	Hydrology and Water Resources
EARS	17	EAPS	17	Statistics for Earth and Planetary Scientists
EARS	18	EAPS	18	Environmental Earth Science
EARS	12	EAPS	22	Big Data Hydrology
EARS	13	EAPS	23	Computational Methods in Earth and Planetary Sciences
EARS	14	EAPS	24	Meteorology
Methods Courses				
EARS	39	EAPS	30	Remote Sensing of the Environment
EARS	33	EAPS	33	Earth and Planetary Surface Processes and Landforms
EARS	34	EAPS	34	Biogeochemical Cycles
EARS	35	EAPS	35	The Soil Resource
EARS	77	EAPS	37	Environmental Applications of GIS
EARS	38	EAPS	38	Sedimentary Geology
EARS	40	EAPS	40	Materials of the Earth
EARS	51	EAPS	41	Mineralogy and Earth Processes
EARS	52	EAPS	42	Structural Geology and Tectonics
EARS	45	EAPS	45	Field Methods: Solid Earth Processes
EARS	46	EAPS	46	Field Methods: Surface Processes
EARS	47	EAPS	47	Field Methods: Cold Regions Processes
EARS	58	EAPS	48	Sedimentary Petrology and Stratigraphy
EARS	59	EAPS	49	Igneous and Metamorphic Petrology
Advanced Courses				
Quantitative Courses				
EARS	70	EAPS	50	Glaciology
EARS	73	EAPS	51	Isotope Geology
EARS	74	EAPS	54	Soils and Water Chemistry
EARS	76	EAPS	56	Watershed Hydrology
EARS	60	EAPS	60	Earth System Modeling
EARS	61.01	EAPS	61	Hydroclimatology
EARS	62	EAPS	62	Geochemistry
EARS	64	EAPS	64	Geophysics
EARS	66.01	EAPS	66	Environmental Transport and Fate
EARS	67	EAPS	67	Geomechanics
Topical Courses				
EARS	32	EAPS	70	Macroevolution
EARS	72	EAPS	72	Geobiology
EARS	65	EAPS	74	Advanced Remote Sensing
EARS	75	EAPS	75	Quaternary Paleoclimatology
EARS	36	EAPS	76	Astrobiology
EARS	37	EAPS	77	Marine Geology
EARS	78	EAPS	78	Climate Dynamics
EARS	79.01	EAPS	79	Special Topics Seminar
Culminating Experience				
EARS	87	EAPS	90	Special Projects: Senior Culminating Experience
EARS	88	EAPS	91	Alternative Culminating Experience
EARS	89	EAPS	92	Honors Thesis
EARS	90	EAPS	93	Honors Thesis II
